

Watch for Reflective Tape

Posted October 27, 2017

Just a heads up for county residents. If you find reflective tape or tagging tape outside your driveway, remove it. It means your house has been cased out and they are going to hit it soon.

The tape could look like it is from one of your utility providers so be sure to check if you see anything suspicious hanging by your driveway.

This is happening in the Innisfail area right now and most likely Red Deer as well. Was told this by an Innisfail county resident that was hit the other day.

Hope this helps at least a couple of people.
