

From Foothills RCW - Hunting Season and Poaching

Posted September 5, 2017

It is currently season and migratory bird season where no scope is to be used. Rifle season begins on November 1, 2017.

If you live on a farm/Ranch, be aware! I caught someone spotlighting deer this weekend and had trucks driving through my property. Fish and Wildlife are a vital enforcement agency and do an excellent job in spite of staff shortages.

Thieves/poachers/moonlight back roaders are all the same. Document your findings and email Fish and Wildlife if you suspect or know of anyone who is hunting illegally, and let them filter the information.

Keep the Report a Poacher number handy - 1-800-642-3800.
