

From Raven CWS - Strange Visitors

Posted November 1, 2017

Received from one of our members:

We had 2 people come to our house this afternoon. The one gentleman aged approximately late 40's came to the door asking how to get to a small town east and north of here by Gull Lake I think oh yes its is Bentley he said. We are a long way from Gull Lake we are on Hyw 766 one mile north of Hyw 54 Most phones have GPS as do most cars. They were driving a fairly new chevy hatch back orange with some design on the sides and a yellow back door. I couldn't tell what the driver looked like but I am sure it was a male. The one who came to the door was about 6 ft and weigh about 250. He had a beard around his mouth and chin his hair was black with a lot of grey in it. I have a picture of the vehicle driving away.

Additional Comment:

Seems like it may be the same people that were described by some members from the C&E trail. They also mentioned that one of the people in the vehicle was quite large.
