

From Red Deer/Lacombe RCW - Shopping List of Stolen Inventory

Posted August 9, 2017

This message came in this weekend from another RCW site. It would appear someone left their "shopping list" behind with a list of their inventory to be sold to the prospective buyers or chop shops.

Inventory stolen from citizens and businesses.

"Shawney Wiancko, dad and I found a stolen truck by the Pump Jack by my parents' place. The paper is sought out plans of what they've stolen and what they are going to steal. Share this so we can bring justice to them."

This has been common knowledge for sometime, how the criminals take their "shopping lists" to the country and gather up their sale items. They also speak among themselves on which communities are watching and those who aren't. To them it is a job.

To us we need to be aware of what is happening.

Education and being informed is power within communities. Be aware at all times and report any suspicious activity to the RCMP. If it doesn't look or feel right, it probably isn't.
