

Warning from Rocky Mountain House RCW

Posted August 20, 2019

I was sent an email that looks like it comes from Canada Post saying they could not deliver a parcel. They stated I needed to click on a link and give them a 4 digit number.

As I was not expecting a parcel I figured it was a scam.

Called Canada Post and they confirmed it is a scam. Do not click on the link as they will try and get you to send money to re route your parcel. Your money will be gone and there never was a parcel.

Please be on the lookout for this scam.

Regards
Deb
