

Stettler thefts – Vehicle Registration & Insurance

Posted April 13, 2017

"Just a heads up! We had our registrations and insurance papers taken out of four of five vehicles in the past two weeks and we didn't notice as the plastic covers were left intact. All of the vehicles were parked at home on the farm, unlocked. That's all that was missing. Appears as though someone also tried to peel date stickers off plates." This was just discovered yesterday.

As this province continues to change, we must also do things differently for we are dealing with a very different type of criminal, one who uses technology/Google Earth to spot their next community or victims. Criminals don't follow the rules or care about the law, and they won't go out of their way to look for a difficult target, they will look for the easiest and least risk opportunity possible.

Please ensure your vehicles are locked and your insurance and registrations are either with you at all times or locked up so it cannot be found by the wrong people.

This information is very valuable on the "dark web" and as our guest speaker, Kathy Macdonald mentioned during her presentation the 25th of March at our AGM, this personal information is worth millions of dollars in the wrong hands.

PLEASE USE CAUTION AND DON'T BE A VICTIM.
